PLANTSCAPES, LLC**

The professional experience.....

Our guaranteed program ensures exceptional quality in our product and service. We offer the most professional and reliable services at a competitive pricing. No matter whether your project is small, medium, or large we have a solution for you. The plants we deliver and install are a reflection of our professional work as much as they are of our clients. Interior design is about creativity and our experienced team pride itself on superior design techniques. They understand that the key to designing indoor plants includes assessing how much light is available, layout and décor of the space and overall traffic flow. That's why we take special care during every phase of the interior landscaping process.

Before we install the first plant, our design specialists will select plants, containers and accessories that will be a good fit for your interior space, your preferences and your budget. We also sell, rent, or lease plants.

When you need quality indoor plant service: Call us today for A FREE ESTIMATE : **703 587 6601**

As experts,

We can create the appropriate atmosphere and image with living plants. Keeping plant life looking their best requires deft skill and proven experience. Our well trained technicians will maintain your plants to meet all the special requirements that come with exotic plants life. That is our specialty. Whether it is an office, mall, hotel, retail store or other building interior, we're experts at enhancing the appearance of any space with live plants.

Our clients expect and receive exceptional performance. Our in depth know-how and meticulous attention to detail in planting and then maintaining impressive interior landscapes has made us a leader in the business.

Follow-Through.....

Our service only begins with installation. Once we've installed your interior plants, our horticulturist specialists visit your facility regularly to care for your plants, keep them healthy and attractive. When necessary we will replace plants that have deteriorated. And we do rapidly. The result is exceptional experience for your building interior, employees and visits every day of the year.

Back Up.....

To ensure outstanding appearance at all times, we maintain a large inventory of acclimatized tropical plants and trees. And we stock a wide variety of planters and containers to meet almost any interior planting need.
